

## About Me

**Hi! My name is Wesley Hackett :)**

I grew up with a deep love for creating with my hands and solving problems. These passions naturally combined for me in pursuing a career in design, where I hope to build tangible solutions to real problems and improve people's everyday lives. Growing up in Washington State, I also developed a deep love for the outdoors and physical activity. In my free time, I love to hike, play volleyball, bike, run, kayak, draw, make pottery, and travel!
